

310

BIOGRAPHIE

310 est un jeune représentant de la scène artistique urbaine russe. Son travail oscille entre fascination pour les maîtres du pop art et influence underground russe. Célèbre en Russie pour ses fresques gigantesques, 310 manipule l'icôneographie pop et op art pour créer des story-boards traitant de la vie urbaine quotidienne.

A Jardin Rouge, 310 a initié une série intitulée *Style Wars* avec laquelle il parvient à se détacher de l'imagerie des années 70.

310 vit à Moscou et expose son travail en Russie, Espagne, Allemagne.

BIOGRAPHY

Was born in Moscow in 1983, career began in 97 from traditional graffiti, later practiced Muralism and Street art. Studied at the Berlin Art School. Now working on indoor and outdoor projects. The art works in foundation and private collections, and in the streets of Spain, Germany, Belgium, Italy, Morocco, France, USA and Russia.

Main theme in this series is the phenomenon of the collective unconscious, the psychology of the crowd and individual communities with their cultural codes. The spectrum of works from abstract compositions to figurative and narrative. These are monumental works and paintings in the pointillism style, through the prism of digitalism, where the main hypercomponent is dots on different scales. Combination of dots is built intuitively and creates a completed art work.

C.V.
